# ITINERARIES 2022 - 2023

## HOW TO CHOOSE YOUR COURSES?

- Each itinerary consists of different subjects. You will find the course descriptions through this [link](#).
- Some courses include lab sessions. Lab sessions are mandatory and prevail over other activities. Schedules will be announced further on.
- Once you have selected the itinerary, you will have to choose courses you want to be enrolled in:
  - a. Erasmus +: you need to enrol to a minimum of 30 ECTS.
  - b. Non-Erasmus +: you must be enrolled to a minimum of 24 ECTS.
- You will not be able to choose courses from different itineraries.
- Most courses offered in the itineraries are part of Bachelor's degrees level. Only a few courses of Pharmacy are second cycle level.
- It is your responsibility to verify that elected courses in the host institution will be recognised by the home institution.
- It is strongly recommended to revise the content of the courses before choosing them. Once enrolled in a course, for organisational reasons, any changes must be authorised by the program supervisor and will be taken into consideration only within a short period after the start of classes.
- Besides your selection, all international students will be registered in *International Experience* (Fall, Spring or Yearly) equivalent to 1 ECTS. This course includes all activities organized by Student Life office that are compulsory.
- The sending of your request does not imply the automatic allocation of places. This assignment will be confirmed by the staff of the Student Life office through an email.
- Registration will be done in order of receipt of applications. Groups will be closed as soon as these are full.
